Adynovate® 3000 IU Available

Customer Letter # 2020-41

2020-09-17

Dear Colleagues:

Canadian Blood Services' plasma protein product portfolio will now include an additional format of Takeda's Adynovate® [Antihemophilic Factor (Recombinant), PEGylated]. Adynovate® 3000 IU will complement the Adynovate® 250, 500, 1000, 2000 IU vial sizes currently available for order. Please refer to the enclosed letter from Takeda dated September 3, 2020 for further details.

Customers may place orders for Adynovate® 3000 IU starting the week of September 21, 2020.

Revisions have been made to the following and information can be found at www.blood.ca in the "Hospital Services" section.

- Plasma Protein Products – Customer Table of Information
- Factor Concentrates and Other Plasma Protein Products Order Form

Please share a copy of this customer letter with healthcare professionals at your hospital who might be interested in this information.

This customer letter can also be viewed at www.blood.ca in the "Hospitals Services" section. If you have questions about this letter, or if you require it in an accessible format, please contact your local hospital liaison specialist.

Sincerely,

Mark Newburgh
Director, Integrated Supply Chain Planning
