CBS Manufactured Pathogen Reduced Apheresis Frozen Plasma:
Revised Implementation date and new associated ISBT Component Codes
Customer Letter # 2024-38

2024-12-18

Dear Colleagues:

The purpose of this communication is to inform Hospital customers of:

- Revised implementation date for the CBS manufactured pathogen-reduced plasma.
- New component codes and description associated with the new Apheresis Frozen Plasma, Psoralen-Treated (ACD-A) component.

Revised Target Implementation Date:

- Introduction of this new pathogen-reduced plasma has shifted from Summer 2025 to Fall 2025, pending Health Canada approval.
- Details about the staggered rollout and educational materials will be shared with hospitals in the coming months.

Component Codes and Sample Labels:

- The pathogen-reduced component will be labeled as Apheresis Frozen Plasma, Psoralen-Treated (ACD-A).
- Refer to "Attachment-1" for the list of new component codes and description associated with the new component and "Attachment-2" for sample labels.
- **ACTION:** Hospitals are being asked to add this new component to their laboratory information system (LIS), to be ready to receive this new component prior to Fall 2025.

Please share a copy of this customer letter with healthcare professionals at your hospital who might be interested in this information.

This customer letter can also be viewed at www.blood.ca in the "Hospital Services" section. If you have questions about this letter, or if you require it in an accessible format, please contact your local hospital liaison specialist.

Sincerely,

Mark Newburgh
Director, Planning
