

# The need for donors remains strong

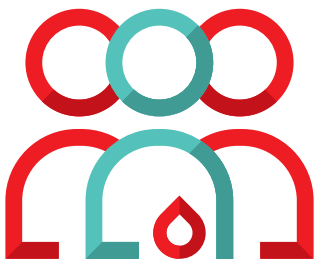

The World Health Organization has declared COVID-19 a pandemic. During these uncertain times, we are determined to keep our promise to help every patient, match every need and serve every Canadian.

There have been  
**no reported or suspected cases**  
of transfusion-transmitted  
COVID-19.

Donated blood and platelets  
have a limited shelf life.

Every 60 seconds, someone  
in Canada needs blood.

Our donor centres are places  
of wellness.

**Canadian  
Blood  
Services**
